Ulrike Tabbert

How to Do Critical Discourse Analysis David Machin, Andrea Mayr, 2012-08-16 How great to have this practical introduction to doing critical discourse analysis, especially one that provides examples of multimodal discourse analysis. Extremely useful for students who need tools for the study of text, talk and images. - Teun van Dijk, Pompeu Fabra University The authors have truly achieved the impossible: to make extremely complex phenomena accessible for students and scholars alike. Thus, this textbook will provide a most helpful guide when looking for adequate ways to grasp and analyze the intricate interdependence of written, oral and visual forms of semiosis. - Ruth Wodak, Lancaster University How do media texts manipulate and persuade us? How do language and images play out the ideas, values and identities? This book shows readers exactly how language, power and ideology are negotiated in media texts, from magazine and advertising, to YouTube and music videos. Presenting a systematic toolkit of theories, concepts and techniques for doing language and image analysis, students learn how to dig deep into discourses and the media landscape. With case studies and examples from a range of traditional and new media content, the book equips students to understand the relationship between language, discourse and social practices.

**Reference and Identity in Public Discourses** Ursula Lutzky, Minna Nevala, 2019-10-21 This volume explores the concepts of reference and identity in public discourses. Its contributions study discourse-specific reference and labelling patterns, both from a historical and present-day perspective, and discuss their impact on self- and other-representation in the construction of identity. They combine multiple methodological approaches, including corpus-based quantitative as well as qualitative ones, and apply them to a range of text types that are or were (intended to be) public, such as letters, newspapers, parliamentary debates, and online communication in the form of reader comments, discussion pages, and tweets. In addition to English, the languages studied include Polish as well as European and Latin American Spanish. The volume is aimed at researchers from different research paradigms in linguistics and related disciplines, such as media communication or the social and cultural sciences, who are interested in the interplay of reference and identity.

**Diachronic Developments in English News Discourse** Minna Palander-Collin, Maura Ratia, Irma Taavitsainen, 2017-08-15 The history of English news discourse is characterised by intriguing multilevel developments, and the present cannot be separated from them. For example, audience engagement is by no means an invention of the digital age. This collection highlights major topics that range from newspaper genres like sports reports, advertisements and comic strips to a variety of news practices. All contributions view news discourse in a specific historical period or across time and relate language features to their sociohistorical contexts and changing ideologies. The varying needs and expectations of the newspaper producers, writers and readers, and even news agents, are taken into account. The articles use interdisciplinary study methods and move at interfaces between sociolinguistics, journalism, semiotics, literary theory, critical discourse analysis, pragmatics and sociology.

**Introduction to Multimodal Analysis** David Machin, 2016-09-22 Introduction to Multimodal Analysis is a unique and accessible textbook that clearly and critically explains this groundbreaking approach to visual analysis. Each chapter outlines the tools for analysis and takes the reader through examples of analysis, providing a model that can then be followed. All visual media compositions, such as photographs, advertisements, newspapers and websites, are carefully designed. A photograph of a soldier, an advertisement for a car, a magazine cover or the opening titles to a news programme are thought out to create the appropriate effect. Designers use semiotic tools such as colour, framing, focus, positioning of elements and font style to communicate with the viewer. These choices make up a visual language that we can analyse. Multimodal analysis looks at the separate components of this language to build up a toolkit for analysing the grammar of visual design. The book includes an assessment of the claim that there is a visual grammar and important differences between images and language and the way they create meaning are identified. Including images throughout and a colour plate section, Introduction to Multimodal Analysis is an essential resource for students studying multimodality within visual communication.
in media and cultural studies, critical discourse analysis, journalism studies or linguistics.

**The Oxford Textbook on Criminology** Steve Case, David Manlow, Kate Williams, Philip Johnson, Roger Smith, 2021 First published in 2017, as: Criminology.

**Criminology** Steve Case, Phil Johnson, David Manlow, Roger Smith, Kate Williams, 2017 Criminology is a textbook with a new approach, both student-focused and research-engaged. Written for today's students, it provides the framework of knowledge core to exploring, understanding, and explaining crime. The goal is simple and bold - to help the next generation of criminologists to be switched-on, excited, and critical.

**The Aesthetics, Poetics, and Rhetoric of Soccer** Ridvan Askin, Catherine Diederich, Aline Bieri, 2018-05-08 Soccer has long been known as 'the beautiful game'. This multi-disciplinary volume explores soccer, soccer culture, and the representation of soccer in art, film, and literature, using the critical tools of aesthetics, poetics, and rhetoric. Including international contributions from scholars of philosophy, literary and cultural studies, linguistics, art history, and the creative arts, this book begins by investigating the relationship between beauty and soccer and asks what criteria should be used to judge the sport’s aesthetic value. Covering topics as diverse as humor, national identity, style, celebrity, and social media, its chapters examine the nature of fandom, the role of language, and the significance of soccer in contemporary popular culture. It also discusses what one might call the ‘stylistics’ of soccer, analyzing how players, fans, and commentators communicate on and off the pitch, in the press, on social media, and in wider public discourse. The Aesthetics, Poetics, and Rhetoric of Soccer makes for fascinating reading for anybody with an interest in sport, culture, literature, philosophy, linguistics, and society.

**Sexual Violence Against Children in Britain Since 1965** Nick Basannavar, 2021-11-30 This book investigates the changes and continuities in the ways in which sexual violence has been interpreted and represented in Britain since 1965. It explores the representational trail of the Moors murders and subsequent trial of 1966, the emergence of age of consent abolitionism in the 1970s, Cleveland’s child sexual abuse crisis of 1987-8, and 2010 and 20s contemplations on the Jimmy Savile scandal. Harnessing research into popular media forms and a huge range of personal, political and professional records, Nick Basannavar carefully parses and illustrates the ways in which journalists, medical workers, politicians, lobbyists and other groups assembled and animated their narratives, revealing complex rhetorical and emotional processes. This book challenges problematic conceptual dichotomies such as silence/noise or ignorance/knowledge. It shows instead that although categories such as ‘child sexual abuse’ and ‘paedophilia’ may be relatively recent linguistic value-constructs, sexual violence against children has existed and been represented across historical moments, in changeable and challenging ways.

**Crime and Corpus** Ulrike Tabbert, 2015-04-15 Reports on crime in newspapers do not provide a neutral representation of criminals and their offences but instead construct them in accordance with societal discourse surrounding this issue. This book takes an interdisciplinary approach at the intersection of Linguistics, Criminology, and Media Studies and demonstrates
how Linguistics can contribute to the study of crime in the media. By combining the tools offered by Corpus Linguistics and Critical Stylistics (a text-based framework for Critical Discourse Analysis), evidence is provided for predominant perceptions of crime and their underlying ideologies in both British and German society. This study names and illustrates the most significant linguistic devices used to construct offenders, victims, and crimes in two newspaper corpora compiled from the German and British press. These devices are then linked to criminological frameworks.

*Popular Culture, Crime and Social Control* Mathieu Deflem, 2010-04-21 Contains contributions on the theme of popular culture, crime, and social control. This title includes chapters that tease out various criminologically relevant issues, pertaining to crime/deviance and/or the control thereof, on the basis of an analysis of various aspects and manifestations of popular culture, including music, and movies.

*Language and Crime* Ulrike Tabbert, 2016-11-15 This book offers a systematic introduction to the linguistic analysis of newspaper reports on crime. The author demonstrates how the linguistic analysis of newspaper texts helps to gain insight into the construction of offenders and victims in those texts and links the findings to criminological frameworks. Tabbert employs Critical Stylistics to explore the description of participants, the presentation of speech as well as actions, states or events, and other linguistic devices employed by journalists to present a particular image of an offender or a victim in the press. This book shows the fruitfulness of an interdisciplinary approach to reveal predominant discourse on crime in society and will be of great interest to researchers in linguistics, criminology and media studies.

*Constructing Crime* C. Gregoriou, 2012-02-29 Crime and criminals are a pervasive theme in all areas of our culture, including media, journalism, film and literature. This book explores how crime is constructed and culturally represented through a range of areas including Spanish, English Language and Literature, Music, Criminology, Gender, Law, Cultural and Criminal Justice Studies.

*Redefining Trial by Media* Simon Statham, 2016-06-14 Redefining Trial by Media: Towards a critical-forensic linguistic interface applies a range of linguistic models to recast trial by media not as a sensationalist and infrequent phenomenon, but as a systematic and routine process. Using critical discourse analysis and cognitive linguistic models, this book builds a Spectrum of Trial by Media which views juries in criminal trials as moulded by ideological media-made constructions of crime. The role of these media constructions is enhanced by the isolation levied on jurors by the linguistic composition of trial language, and reinforced by the language strategies of legal professionals in court. Critically deconstructing media portrayals of crime and forensically examining the language of criminal proceedings, this book offers a redefinition of trial by media which casts the role of the press as much more prevalent in the courtroom trial than is presently appreciated.

*The Linguistics of Crime* John Douthwaite, Ulrike Tabbert, 2022-12-31 Bringing together scholars from a range of disciplines, this book explores the analysis of crime-related language. Drawing on ideas from stylistics, pragmatics, cognitive
linguistics, metaphor theory, critical discourse analysis, multimodality, corpus linguistics, and intertextuality, it compares
and contrasts the linguistic representation of crime across a range of genres, both fictitious (crime novels, and crime in TV,
film and music), and in real life (crime reporting, prison discourse, and statements used in courts). It touches on current
political topics like #BlackLivesMatter, human (child) trafficking, and the genocide of the Kurds among others, making it
essential reading for linguists, criminologists and those with a general interest in crime-related topics alike. Covering a
variety of text genres and methodological approaches, and united by the aim of deciphering how crime is portrayed
ideologically, this book is the next step in developing research at the intersection of linguistics, criminology, literature and
media studies.

**Crime Fiction Migration** Christiana Gregoriou, 2017-07-27 Crime narratives form a large and central part of the
modern cultural landscape. This book explores the cognitive stylistic processing of prose and audiovisual fictional crime
'texts'. It also examines instances where such narratives find themselves, through popular demand, 'migrating' - meaning that
they cross languages, media formats and/or cultures. In doing so, Crime Fiction Migration proposes a move from a
monomodal to a multimodal approach to the study of crime fiction. Examining original crime fiction works alongside their
translations, adaptations and remakings proves instrumental in understanding how various semiotic modes interact with one
another. The book analyses works such as We Need to Talk About Kevin, The Killing trilogy and the reimaginings of plays
such as Shear Madness and films such as Funny Games. Crime fiction is consistently popular and 'on the move' - witness the
spate of detective series exported out of Scandinavia, or the ever popular exporting of these shows from the USA. This
multimodal and semiotically-aware analysis of global crime narratives expands the discipline and is key reading for students
of linguistics, criminology, literature and film.

**Cultural Criminology** Jeff Ferrell, Keith Hayward, Jock Young, 2008-09-25 Winner of the ASC Distinguished Book Award
for International Research! 'Beautifully written and superbly conceived, with illustrations and examples that combine theory
and practice across a range of disciplines, Cultural Criminology should be read by anyone - academics and smart readers
alike - interested in crime, media, culture and social theory. Bravo to Ferrell, Hayward and Young on a tour de force that is
at once cool and classic! Cultural Criminology will influence the field for a very long time to come.' - Professor Lynn Chancer,
Hunter College, CUNY, USA `This is not just a book on the present state and possible prospects of our understanding of
crime, criminals and our responses to both. However greatly criminologists might benefit from the authors' illuminating
insights and the new cognitive vistas their investigations have opened, the impact of this book may well stretch far beyond
the realm of criminology proper and mark a watershed in the progress of social study as such.' - Zygmunt Bauman, Emeritus
Professor, University of Leeds, UK `Cultural Criminology offers a fresh new perspective on both criminality and criminal
justice. It outlines the cultural hegemony of the powerful while also documenting the growing resistance to mindless
criminalization and mass incarceration. Artfully written, the authors also document the work of those consciously creating a new political space to challenge the increasingly global, security society that seems inextricably tied up with late capitalism. 
- Meda Chesney-Lind, University of Hawaii at Manoa `Creative, challenging and controversial: a manifesto for mean times' - Tony Jefferson, Visiting Presidential Scholar, John Jay College of Criminal Justice, USA Here is the definitive book on cultural criminology. Lively, innovative, engaging and accessible, Cultural Criminology draws together the work of three of the leading international figures in the field today. The book traces the history, current configuration, methodological innovations and future trajectories of cultural criminology, mapping its terrain for students and academics interested in this exciting field. The book highlights and analyses issues of representation, meaning and politics in relation to crime and criminal justice, covering areas such as: - Crime and the media - Everyday life and everyday transgression - Popular culture - Consumerism - Globalisation - Social control The use of vignettes, case studies and visual material throughout the text brings the subject to life. Cultural Criminology is indispensable to students, lecturers and researchers in criminology, sociology, cultural studies and media studies. Jeff Ferrell is Professor of Criminal Justice at Texas Christian University and Visiting Professor at the University of Kent. Keith Hayward is Director of Studies for Criminology/ Senior Lecturer in Criminology at the University of Kent. Jock Young is Professor of Sociology at the University of Kent and Distinguished Professor at John Jay College, CUNY. Creating Language Crimes Roger W. Shuy, 2005-09-15 This book illustrates how linguistic analysis of undercover tape recordings made by law enforcement can help defense attorneys, law enforcement officers, judges, and juries better understand the effects of conversational strategies used to give the appearance of criminal activity. If only the appearance of such crime is created, law enforcement has not reached its evidentiary goal. Eleven conversational strategies were used in the twelve actual criminal cases described in this book.

Marginal Conventions Clinton Sanders, 1990 Marginal Conventions contains twelve essays by social scientists centering around the general connections between popular culture and deviant behavior. In addition to speaking to the commonsensical view that exposure to representations of misbehavior makes people misbehave, this collection focuses on media presentations of crime, violence, and villainy; the utility of deviance theme for societal elites; and the taste publics centered around disreputable products and rituals.
